### **What's New in the?**

EVE-AT1 & EVE-AT4 is a two band EQ plugin for both Mac and Windows. It consists of a low-pass & high-pass EQ with gain and peak control. In addition, the frequency bands can be cut and/or boosted by up to 500 Hz and 10kHz. This high flexibility offers you the ability to EQ the entire

frequency range and remove unwanted noise. "Equally as nice as the original - I think both of these plugins deserve the name of "KUASSA"! The delivery time was excellent (within a week), and the source code included is perfect for free in-depth support. Highly recommended. This is my 3rd or 4th plugin from "BVST" and the last one was from the same author. I am looking forward to more products from "BVST" soon!" Simple to use. Works in DAWs such as Ableton, Logic, and GarageBand. Requires: Mac OS X 10.7.5 or higher Win 7 or higher  
Customer Support: If you are a customer and have an order you would like to discuss, please email us at

support@audioculture.com Credits: I would like to thank the following programmers for making this product possible. EVE-AT1 & EVE-AT4 from Kuassa. A PC EQ, designed for the vocalist. It works to remove unwanted frequencies in both the bass and mid frequency range. The most basic version is free. An enhanced version is available for \$29. This version includes all of the basic effects of the free version plus boosted treble, and it also adds a 20dB boost to the mids.

**INSTRUCTIONS: EVE-AT1 & EVE-AT4** is a two band EQ with a lowpass and highpass. You can both boost and cut frequencies up to 500Hz and 10kHz.

**Band 1:** This frequency band is designed to help remove the "mud"

effect of higher frequencies. If you put the filter to 80%, you will remove frequencies above 4000 Hz. If you make it to 20% you will remove frequencies up to 8500 Hz. Band 2: The lowpass filter is set to 20Hz. Highpass is set to 20 kHz. For your convenience, the settings can be saved to a preset list and used over and over.

**HOW TO USE EVE-AT1 & EVE-AT4:**  
Click the "Load" button in the "File Browser" to import the plugin files. Set the settings you wish to use in the dialogs. The lowpass filter can be set to 20Hz and the highpass filter can be set to 20kHz. The frequency range can be raised or lowered as desired. EVE-AT1 & EVE-AT4

## System Requirements:

Windows XP, Vista, Windows 7, or Windows 8 OS: Microsoft Windows 7 (32-bit or 64-bit, SP1 or later)  
Processor: Intel Core i3-6002U or AMD Phenom X3 805  
Memory: 1 GB RAM Graphics: Intel HD 4000 graphics card, AMD Radeon HD 6310 or better (included in basic version)  
Network: Broadband Internet connection  
Sound Card: DirectX 9.0c-compatible sound card  
Keyboard: Windows-compatible keyboard  
Mouse
